Metalworking Metal Forming Machine Tools Tradeshow Preview/Review

Share to:     

From Thursday 8 to Friday 9 May 2025, fieramilano Rho will host the industry's leading metal forming event, LAMIERA 2025. The exhibition will showcase the latest technology in metal forming and machine tools, with a focus on sustainable and innovative solutions for the future of the industry.

Machines and equipment
for the machining of sheet
metal, pipes, sections, wire
and metal structural work.
Dies. Welding.
Treatments and finishing.
Subcontracting.
Robots, automation
and enabling technologies.

During the event, visitors will have the opportunity to see the latest equipment and technology in the metal forming industry, including sheet metal forming, pipe forming, wire forming, and metal structural work. The event will also feature a series of seminars and workshops, providing a valuable opportunity for industry professionals to learn from experts in the field.

Organized by UCITA (Unione Nazionale Industrie Metalmeccaniche e Metalmeccaniche) and supported by the Italian Ministry of Economic Affairs, LAMIERA 2025 is the leading event in the metal forming industry. The event will attract a large number of visitors, including industry professionals, researchers, and students, making it a must-attend event for anyone involved in the metal forming industry.
